

ANNUAL, PERENNIAL PLANT AND ROSE BUSH FERTILIZER 3-2-2

Description

- Formula specially for annual and perennial plants, rose bushes
- Equilibrate source of nitrogen (3 % N), phosphorus (2% P) and potash (2 % K)
- Contains no synthetic fertilizers

Instructions

Apply during the plant growing season.

Step 1 > Shake vigorously the product before use.

Step 2 > Fix this container to the water hose.

Step 3 > Open the valve on the container and spray the base of plants.

Apply half of the product content (500 ml). Repeat treatment about one month after the first application and during the plant growing season.

A container of 1 liter covers 2 applications for 40 plants (3.7 m² OR 40 sq.ft.)

For best results, use this product with **Bioprotec Annual, Perennial Plant and Rose bush Transplanter 5-13-0.3**.

The Annual, Perennial Plant and Rose Bush Fertilizer 3-2-2 should be used as a complement to a complete fertilization program established according to the fertility level of the soil or substrate.

Store in a cool place, away from direct sunlight.

Keep out of reach of children
