

Neem oil

Description:

Bioprotec® HDN is a Neem oil of superior quality extracted from seeds of the Neem tree (*Azadirachta indica*).

Packaging:

Concentrate formula.
Available in sizes of 125 ml, 500 ml, and 1 litre
Ready to use formula.
Available in size of 1 litre.

Function:

Bioprotec® HDN :

- is a natural leaf shine for indoor plants;
- is compatible with foliar and root fertilizers, growth regulators and biopesticides.

Instructions:

- Apply the product with a water can or by pulverization (manual or motorized).
- Apply at a rate of 1 litre of solution per 10 m².
- The minimum volume of water to cover 10 m² should be 1 litre.
- Agitate before use (If the content of the bottle is in a solid state, put the bottle in hot water 3 minutes to liquefy the oil).
- Dilute 5 to 10 ml (1 to 2 teaspoon) of **Bioprotec® HDN** in 1 litre of water. Shake well. Spray to cover completely the foliage.
- Apply every 7 to 14 days.

Storage:

Store in a cool place, away from direct sunlight.

Precautions:

Keep out of reach of children. Do not drink.
Presents a negligible risk for animals and humans.
If irritation signs to the eyes and the skin appear, consult a doctor.
CAN CONTAIN NUT TRACES.
